RE: Financial Assurance for Post-Closure Care
Seco Products Corporation, Facility ID# MOD 068549492

Dear Mr. Tenney:

The financial assurance files for the above referenced facility have been reviewed. The current financial assurance instrument for post-closure care for the surface impoundment is Letter of Credit (LOC) #S7034660 dated December 14, 1992, with Boatmen's National Bank of St. Louis. This LOC is in the amount of \$287,400. According to 40 CFR 265.143(c)(3) as adopted in 10 CSR 25-7.265, a standby trust fund must be established when a facility uses a letter of credit as financial assurance.

No trust fund could be found in the files. Within thirty (30) days of the receipt of this letter, submit a duplicate original standby trust fund as specified in 40 CFR 265.143(a) or another form of financial assurance as listed in 40 CFR 265.143. The trust fund or alternate financial assurance instrument should be sent to me at the letterhead address. For your reference, a copy of the required wording for a standby trust fund is enclosed.

A copy of the current post-closure care estimate should accompany the financial assurance instrument. If the current post-closure care estimate is greater than \$287,400, the letter of credit must be increased or other financial assurance must be obtained to cover the increase per 40 CFR 265.145 (c)(7).
